**COMBINING WESTERN
FERTILITY TREATMENTS
WITH CHINESE MEDICINE**

with

Dr Celine Leonard PhD.

**A One Day Workshop
For Herbalists, Acupuncturists & Naturopaths**

10th February 2007

9.00 AM to 5.30 PM

The Camden Court Hotel, Camden St., Dublin 2

**IVF, ART & Acupuncture
Combining Treatment Methods**

Celine Leonard is at the forefront of the development of a new integration that incorporates concepts from the Western tradition with Acupuncture and Chinese Herbal medicine in the treatment of Infertility.

This workshop will look at both the Eastern and the Western approaches to the treatment of Infertility and the practical aspects of combining both in assisting women to conceive.

*Institute of East West
Medical Sciences*

The Teacher

Dr Leonard qualified in the UK as an acupuncturist in 1987 and as a practitioner of Chinese Herbal Medicine in 1998. She began to specialise in gynaecology from 1995 onwards because of her work with a consultant gynaecologist on the treatment of women with endometriosis. In 2002, she joined the team of the Merrion Fertility clinic and began to work to assist women through the processes of Assisted Reproductive Technology (ART), building up expertise in appropriate intervention in the processes of ART, including IUI and IVF. She is a lecturer in gynaecology in various colleges here and in the UK. She is Chair of both the Irish Register of Chinese Herbal Medicine and the National Herbal Council. From 2004 to 2006 she served as Herbal Representative on the Department of Health and Children's (DOHC) National Working Group on the Regulation of Complementary Practitioners in Ireland.

Workshop

Assisted Reproductive Technology - IUI, IVF, & Acupuncture

Assisted Reproductive Technology (ART) includes a range of methods used to circumvent human infertility, including in vitro fertilisation (IVF), embryo transfer (ET), gamete intra-fallopian transfer (GIFT), Intra uterine insemination (IUI) etc. In vitro fertilisation (known as IVF) is the name given to a technique where eggs are

fertilised with sperm outside the body in a test tube. IUI is the updated name for what was once known as artificial insemination. The reason for the name change is that artificial insemination can now occur in four different locations.

Central to these procedures is an optimized stress free reproductive environment to enable conception to take place. Acupuncture can be used at all of the different levels to assist in this process.

In this workshop Dr. Leonard will draw from her long experience of working in a conventional modern medical setting where she uses a traditional chinese medicine approach in helping women to conceive. She will look at all aspects of reproduction from a Chinese medicine perspective and how she manages to interface with the modern approaches of In-Vitro Fertilisation and Assisted Reproductive Technology.

Costs & Booking your place on the Workshop
