**Pain Conditions, Sciatica, Shoulder pain, Migraine, Depression,
Anxiety, Tobacco Addiction.**

The famous *Nogier Method* was originated in 1951 by Dr Paul Nogier when he discovered there was a correspondence of receptors in the ear specific to functional areas of the cerebral cortex (Somatotopy). Through this he was able to map the entire body on the external ear. He found that when an organ is sick, painful points will appear on the ear. The points are detectable with a pressure tester or using an electric detector.
